SOFTWARE ENGINEERING EXPERIENCE

Android Developer Intern -- NXTANALYTICA Pvt. Ltd., Kolkata [May 2026 - July 2026]

* Engineered cross-platform mobile apps directly from UI/UX blueprints with native 60fps rendering.
* Standardized app architecture utilizing clean OOP patterns, decoupling business logic from UI.
* Implemented resilient network request handlers and JSON serialization protocols.

Software Developer Intern -- B3NET Technologies Pvt. Ltd., Kolkata [June 2025]

* Co-engineered AI-driven interview question synthesis and candidate evaluation mobile platform.
* Refined Firestore indexing structures and query execution plans, slashing query overhead.
* Participated in sprint retrospectives, continuous code reviews, and structured GitHub PRs.

FEATURED ENGINEERING PROJECTS

Ping It -- Distributed Community & Event Hosting Mobile App [Aug 2025]

Stack: Flutter, Dart, Firebase Firestore, Firebase Auth, Kotlin DSL, Android Gradle
* Real-time state synchronization via Firestore snapshot listeners and multi-tenant feeds.

Enterprise Material & Inventory Management System [Apr 2024]

Stack: ReactJS, Node.js, Express, MongoDB Atlas, RESTful Web Services
* Full-stack inventory control dashboard with strict MongoDB document validation rules.

TECHNICAL SKILLS

Languages: Python, Dart, C, SQL [PostgreSQL/MySQL], JavaScript ES6+
Frameworks & Mobile: Flutter [Multi-Platform], Android SDK, ReactJS, Selenium
Databases & Tools: Firebase Firestore, MongoDB Atlas, Git/GitHub, Gradle, Kotlin DSL, Postman
